The island of Saba is a volcanic island that rises majestically from clear azure waters. She is like no other Caribbean destination. Untouched by the quickening pace of the modern world, an island caught within a moment. The old Caribbean; safe, friendly and charming with exquisite natural beauty both above and below her waterline.

Saba has a marine protected area around the whole island, so fishing and tourism is regulated. The sea life and the coral is in great shape, abundant & thriving! The superb location of Juliana's Hotel makes it a perfect launch point for discovering some of Caribbean's best kept secrets. Situated in Windward Side, it provides an excellent view of the mountains and the sea.

Saba's volcanic origins have blessed her waters with spectacular formations and structural diversity, therefore scuba diving is a breathtaking experience in Saba. With 30+ dive sites, it is an underwater paradise consisting of coral reefs and sponge formations with thousands of colorful tropical fish. The water is pleasant and the visibility is excellent. Join us and see the undiscovered gem of the Caribbean sea for yourself!
